

Washing Instructions for Lycra, Skirts and Tutus

COTTON LYCRA GARMENT (Leotards & Activewear)

- All cotton lycra garments should be hand washed in warm or cold water and allowed to drip dry.
- Constant machine washing can cause pilling of the material.
- Cotton lycra should never be tumble dried or dried near direct heat as this could break down the elasticity of the garment, or cause shrinkage.
- Cotton lycra should not require ironing, but if ironed, an ironing cloth should be used between garment and iron.

SKIRTS...

- All voile, chiffon and georgette skirts should be hand washed in warm water and allowed to drip dry.
- Voile, Chiffon and Georgette are delicate fabrics and should not be tumble dried. All skirts may be dry cleaned. Warm Iron only should be used.
- Polyester and cotton Character Skirts may be machine washed on a gentle cycle and spun dry. Polyester and cotton may be tumble dried. Warm to hot iron may be used.

TUTUS...

- Tutus may be dry cleaned or hand washed in cold or warm water and allowed to drip dry upside down. Starch may be required to re-stiffen tulle skirt.
- Tutus should never be tumble dried or dried near direct heat.
- Warm Iron only on tulle. Nylon lycra should

not be ironed.
